ABSTRACTED-PUB-NO: JP 48017824A

BASIC-ABSTRACT:

Nonsaponified rice oil components and tocopherols alone or in combination are used to protect pigments from discolouration. The treatment is used in protecting colouring agents for foods, cosmetic product, and others. A synergistic effect is obtd. when both rice oil and tocopherol are used. Treated pigments are resistant to colour changes caused by pH, heat and light.
